SHUGUARD

Firm A60 urethane pad material very suitable for supporting the inner sole.

250cc cartridges fitting in standard caulking guns. SHUGUARD is a supporting pad material which can be used on horses with shoes or barefoot. Thanks to the support on the sole it relieves the pressure on the wall and improves heel growth.

Fill up to ground level for optimal support. Set time approx. 35 seconds. Temperature and humidity may affect the performance of this product.

SHUSIL

Firm but soft silicone pad material in three versions A10 (blue) - A20 (transparent) - A30 (purple).

250cc cartridges fitting in standard caulking guns. Offers protection, shock absorption and support for the hoof. Always use SHUSIL in combination with Shupads!

SHUSIL does not contain acids or chemicals. Setting time 4 minutes, depending on weather conditions. Heating up SHUSIL before use speeds up setting time significantly. Temperature and humidity may affect the performance of this product.

SHUBOND

420 cc bottle in Europe

420 cc bottle in USA

Acrylic glue for bonding all kinds of horseshoes and hoofwall repairs.

Available in 150cc and 420cc black and beige. Fits in standard caulking gun using an adapter or just use the Glue-U dispenser for 150cc cartridges. 420cc only usable with special gun.

Bonds steel, aluminium and even urethane shoes. Suitable for repairing large cracks and creating extensions. Initial set time: 90-120 seconds (open time). Weight-bearing in 4-5 minutes (even in cold conditions). Temperature and humidity may affect the performance of this product. Heating up SHUBOND before use speeds up setting time significantly.

GLUSHU WITH
SHUBOND VIDEO

GLUSHU

GLUSHU is a flexible cuff bonded to a specially designed aluminium horse shoe. Also available in a mini version for small horses and foals, and an XL version for draft horses.

This gives the horse a light, hoof supporting, cushioned shoe which eliminates any stress or damage to the horse's hoof and is easy to apply.

GLUSHU are non invasive, completely eliminating the risk of hoof injury due to nailing. Easy and fast to apply. Available in pairs or kit. Uses a fast acting glue. We strongly advise you to use Glue-U SHUBOND glue which is specifically designed to be used with GLUSHU. Simple sizing system & large range of sizes.

PRE FIX

PRE FIX is a system to bond a GLUSHU to the foot just to keep it in place. PRE FIX is very useful if you have a very nervous horse or a horse that is unable to stand on three legs (laminitis or injury). PRE FIX is used prior to SHUBOND structural bonding.

SHUPADS

The base for SHUSIL and SHUDIM. Every pad is designed with self closing injection holes. So filling up the hoofs becomes easier with SHUPADS. We make use of an extreme durable polyurethane creating a long lasting pad.
